

Information Security Standard Operating Procedure

Standard Operating Procedure: InfoSec compliance

This document describes the standard operating procedures for information security controls, auditing processes, and server monitoring.

Clause A: Server Inspections

Information security teams will perform routine scans and vulnerability assessments on all production systems every Friday night.

Clause B: Term & Extensions (Medium Risk Clause)

This contract shall automatically renew for successive one-year terms unless cancelled. At the end of the initial term, the agreement will auto-renew. The service agreement extends automatically unless written notice is given 30 days prior.

Clause C: Policy Violation & Termination (Medium Risk Clause)

Either party may terminate this agreement immediately and without notice upon any breach. This agreement may be terminated by the vendor immediately without prior written notice.
